

New FARMA Winch!

NEW! FARMA now offers two completely new models of radio winch in its range. The radio control makes the work kinder on the body but above all, safer. The winch is available in two models. A smaller version for 3.8 m cranes with 5 mm cable and a length of 30 m, as well as a model for 4.6 m cranes and upwards with a 6 mm cable and a length of 35 m as standard.

RW 600 for installation on C 3.8 m crane.

RW 1300 for installation on C 4.6 m and upwards.

The strength to develop!

FARMA Generation 2; products based on the user's experience. This is innovative design and technical development that goes a step further. FARMA G2 involves an upgrade to both products and design, but it also means a further development of the brand into new lines of business. Our long experience in the industry and our

global purchasing team provide the conditions for comprehensive equipment options and competitive prices. We help you to work profitably. FARMA Generation 2 has been developed by foresters for foresters.

TECHNICAL DATA

TECHNICAL SPECIFICATION RW 1300

Technical data	RW 1300 Winch
Traction force at 175 bar	1,300 kg
Line speed at 40 l/min (m/sec)	0.8 m/sec
Cable length	35 m
Cable diameter	6 mm
Weight, winch	52 kg including winch, cable, pulley.
Radio control	2-channel

TECHNICAL SPECIFICATION RW 600

Technical data	RW 600 Winch
Traction force at 175 bar	600 kg
Line speed at 40 l/min (m/sec)	1.1 m/sec
Cable length	30 m
Cable diameter	5 mm
Weight, winch	23 kg including winch, cable, pulley.
Radio control	2-channel
